

## GIS Course

October 31 – November 2, 2013

Dear PHD students,

Florian Bauer offers a course teaching basic knowledge about GIS programs.

You will learn about how to use and create maps with the free GIS software QuantumGIS (QGIS), working with geographical data like adding points and polygons and how to deal with coordinate systems and projections.

The 3-day-workshop takes place in the GIS lab of the Graduate School, Leibnizstraße 1, Room 205 on the following days:

Thursday, October 31, 9:00 - 12:00

Friday, November 1, 9:00 - 12:00

Saturday, November 2, 9:00 - 12:00

Please sign up on the list on the wall opposite to Heide Stieger's office, Leibnizstraße 3, R.118, or send a mail to Florian.

Best,

J.Kneisel/F.Bauer
